Testimonial for Marco Van Beek

*At Severn Bay we take our reputation very seriously and whenever we engage partners to work with us, in whatever capacity, we make sure that the results are ones which can only enhance our reputation.*

*I recently asked Marco to take over management of our complete IT systems. The first step was to migrate our emails, calendars etc... from Gmail to Office 365 giving us a long term solution based on cloud technology, but integrated with Outlook which is critical to our back office systems.*

*Marco has managed to migrate all of our various accounts internal and external and to achieve a seamless system which can now be expanded as our business grows. Marco has been endlessly patient and professional. We now move on to stage two and beyond when he comes to take over the network and the physical kit and equipment.*

*I have no hesitation in recommending Marco to all of my clients, connections and a friends. I cannot recommend him highly enough.*

*Kindest Regards*

A handwritten signature in black ink, appearing to read 'Nigel Adams', enclosed within a hand-drawn oval.

*Nigel Adams  
Managing Director  
Severn Bay Corporate Solutions.*
